

|                                       |             |
|---------------------------------------|-------------|
| <b>Product Name</b>                   | <b>SG15</b> |
| <b>Feature</b>                        | Standard    |
| <b>Application Field</b>              | Dental      |
|                                       | Figure      |
| <b>Color</b>                          | Clear       |
| <b>Viscosity (25°C, cP)</b>           | 200-300     |
| <b>Specific Gravity(g/cm3)</b>        | 1.06-1.10   |
| <b>Tensile Strength at Break(MPa)</b> | 35-50       |
| <b>Elongation at Failure(%)</b>       | 6-10        |
| <b>Glass Transition (Tg, °C)</b>      | 60          |
| <b>Shore Hardness</b>                 | 80D         |
